Foreward

The mileages listed in this booklet are the official road mileages for the King's and Secondary Highways and Tertiary Roads in Ontario. They supplement those shown on the mileage triangle incorporated with the Official Road Map.

The highways are listed in order and point locations run consecutively from east to west or south to north, depending on the general direction of the highway. The mileages are computed in both directions, for simplicity in calculating distances.

Highways in the 400 series including the Queen Elizabeth Way and Macdonald-Cartier Freeway are generally multi-lane divided King's Highways.

Highways in the 500 to 600 series are Secondary Highways.

Tertiary Roads are listed in the 800 series and are usually local or access roads.

# Index
